

UP 60

strong and competent

WEZAG

Features

Technical data

60 kN Crimp Force | Pneumatic | Air pressure 6 bar | 87 PSI

High-quality

Linear crimping motion provides high process quality and is an ideal choice for automotive and industrial applications

Application range

Uninsulated contacts up to 120 mm² | Insulated terminals up to 70 mm² | Wire end ferrules up to 240 mm² | Automotive connectors up to 35 mm²

Process-optimized

Process time can be minimized thanks to the adjustable return stroke

Monitoring in real time

Crimp force monitoring available as an option

Flexible

React to different production orders with quick-change adapter system

Light

With 60 kg weight in combination with crimping force, the most powerful pneumatic crimping machine, and still space-saving and transportable

Reliable

The production quantity is recorded by the electronic piece counter

Process-safe

Forced sequence control provides additional process quality

Individual

Different adapters allow almost unlimited variability for individual customer solutions, use of external dies possible

Varied

A selection of standard processing solutions with and without positioning system available from stock

User-friendly

Safety or two-hand operation optionally available

Well-known

"WDT" is established as a strong brand in the field of cable processing for decades

Customized

Customized versions in design and function are available on request

Reliable

Quality Made in Germany and CE compliant
